Problem Statement

Our users are stressed because they have trouble managing their time between classes. There are too many users with inefficient time management. Our service would give them possible schedules based on what they plan to do that day to better plan their day.

1. **Who is experiencing the problem?** College Students and young adults who are not efficient at managing time/schedule.
2. **What is the problem?** As students have a new, heavy schedule, it is often difficult to manage time properly to get the most out of one's time. There is too much to remember and stay on top of.
3. **Where does the problem present itself?** The daily life of students and young adults on college campuses and beyond.
4. **Why does it matter?** College students and young adults need an efficient schedule that encompasses everything they do day to day, while still giving them time to relax/do homework or logistics.
